

Reclamation District No. 1004

August 22nd, 2019

To Whom It May Concern;

We started looking into Aqualastic two years ago for our large concrete ditch that is over 20 years old. The concrete ditch has a lot of cracks. We've tried everything to make repairs with no luck. The Board decided to reach out to Aqualastic to see how their product worked. We also wanted to inspect ditches they've repaired.

In 2019 we decided to try Aqualastic on a third of the ditch. So far, we haven't had any new cracks or old cracks re opening. During the spring of 2020, we plan to have Aqualastic come back to finish the remaining part of the ditch. We are excited to continue working with this great company and product.

Regards,
